

museum of
innovation and science

at my library

This project was made possible in part by the Institute of Museum and Library Services # MA-10-14-0083-14.

Every MVLS library will enjoy these 5 exciting miSci programs each year:

3 hands-on programs for families • 1 Starlab planetarium outreach • 1 STEM discovery box

Selected sessions may be presented up to twice per visit, with a maximum of 25 participants each

Hands-on Programs

by miSci and the Dudley Observatory

PICK 3

PreK to Grade 2

Little Wonders of Science

Science story time with basic experiments

Grades 3-5

Innovation and Invention *Learn what it takes to be an inventor*

Grades 3-5 or 6-8

Nano *Everyday nanotechnology exposed*

Just a Phase *Explore the Moon*

Magic of Electricity *Discover hair-raising fun!*

Engineering Mission *Design a moon vehicle*

Dry Ice *Explore state of matter and sublimation*

Solar and Lunar Eclipses *Learn about eclipses and how to view one.*

Grades 6-8

Optical Illusions and Brain Games *Uncover the science that tricks our eyes and minds*

Dynamic Earth *Explore our earth's natural science*

BOOK NOW!

Call 518-382-7890 x 237 or complete the [Library Reservation Request Form](http://bit.ly/1AY5SJz) (<http://bit.ly/1AY5SJz>) and:

- Email to reservations@miSci.org
- Fax to 518-382-7893

Starlab Programs

by The Dudley Observatory

PICK 1

PreK to Grade 5

As the Earth Spins

Study the earth's rotations

Seasonal Stargazers

Constellations revealed

Grades 3-5 or 6-8

Native American Constellations

Explore storytelling & celestial movement

Grades 3-8

Andromeda to Zeus *Investigate Greek myths & seasonal constellations*

Reasons for Seasons *See what causes seasons on Earth*

Not an MVLS Library?

Other libraries can still book these programs! Contact Cindy DeMarco at miSci for details: 518.382.7890 ext.228
