Gifts of Securities to miSci

miSci – Museum of Innovation and Science appreciates the generosity of its donors. The easiest way to give publically traded stock is to do so through the Depository Trust Company (DTC) system. Simply decide on what you want to give, and then give the following information to your broker. DTC transactions happen quickly, and sometimes days before written confirmation reaches us at miSci. So that we can properly identify and process your gift, please contact Carmel Patrick, Director of Development, with information about your gift at 518-382-7890, ext. 254 or through email at carmel.patrick@misci.org.

The amount of your gift will be the average value of the shares on the date that they appear in miSci's brokerage account, exclusive of any transaction fees. We will confirm the gift amount in writing to you upon receipt of the shares.

Information about your gift:

Your name: _____

Your address: _____

Telephone Number: _____ Email address: _____

Name of Stock: _____

Stock Symbol: _____ Number of shares: _____

Date of gift: _____
